

Hints for usage:

play without delay

```
ffplay -fflags nobuffer /dev/video1
```

```
# works for network streams, not for /dev/video
```

```
ffplay -probesize 32 -sync ext http://192.168.3.248/VIDEO.CGI
```

```
ffplay -fflags nobuffer -flags low_delay -framedrop \  
-strict experimental -rtsp_transport tcp rtsp://<host>:<port>
```
