

Urgh! I mailed wrong queue

find transaction number of comment you want to change

eg: /rt/Ticket/Display.html?id=1334#txn-15624

check if ticket number matches and update it

```
rt4=# select * from transactions where id = 15624 ;
-[ RECORD 1 ]-+-----
id           | 15624
objectid     | 1334
```

update objectid

(which is really ticket number)

```
rt4=# begin ;
BEGIN
rt4=# update transactions set objectid= 1290 where id = 15624 ;
UPDATE 1
rt4=# commit ;
COMMIT
```
